

07/2012: Weigel-TrackJet at the Airfield Engineering and Asset Maintenance 2012

Weigel-TrackJet at the Airfield Engineering and Asset Maintenance 2012

From 19 - 22 June the 3rd Airfield Engineering and Asset Maintenance 2012 took place in Hong Kong.

Airfields have to keep up with technological advances of airplanes by ensuring the pavements are adequately designed and maintained. Experts from all over the world presented case studies to give a thorough understanding of how you can deliver on schedule and budget and respond efficiently to the critical challenges airfield operations present.

Weigel-TrackJet was presented by our Director Sales, Mr. Gerd Heinrich. You can see his presentation by just clicking on the link below.
