

2010-05: TrackJet® team gets helpful support

Press information/Particulars

Mellrichstadt, April 26, 2010: Dieter PADE, Vice President Sales & Services for the TrackJet® developer Weigel Hochdrucktechnik, who has been working for 10 years in the world airport maintenance market, will now be assisted by Gernd HEINRICH, an experienced business administration graduate. As Sales Director for Area II, Gerd Heinrich will be responsible for the following regions: Latin America, Caribbean, India, Australia/Oceania, China, Japan, Germany, Switzerland, Italy and francophonic countries.

The 53-year-old manager will support and expand the worldwide sales of TrackJet®, which is an innovative Precision Water Pressure Jet System mainly employed at airports, in order to remove rubber and paint markings from runways.

These systems are currently in worldwide demand due to their efficiency and eco-friendliness and have been in operation for over 30 years. Gerd Heinrich, who has more than 20 years managerial experience in the sales of high-quality technical products in the plastics and machine construction industries is looking forward to applying his expertise at Weigel Hochdrucktechnik.

You can reach Gerd Heinrich on his mobile +49 160 / 97 25 02 74, or via email at g.heinrich@trackjet.de
